HIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

1. The construction of a tunnel which will extend from Trapeto (XM 4474) to Hristo Danovo (XM 3958) was begun recently. The Lovech railroad line will go through it. Soviet engineers were supervising the construction of the tunnel.
2. Construction of a tunnel under the Danube River to connect Bulgaria and Rumania has begun in the Oryakhovo area. A previous attempt to construct a tunnel in the area failed, but the new construction was begun at a different place.
3. A radio station is being constructed near the village of Gorna Malina (XL 6759) to be used as a jamming station. Four towers, each about 120 meters high, have been completed, and at night the red lights on them can be seen from Sofia. Soviet technicians were supervising the work, and the equipment for the station was brought from the Soviet Union.
